

FOR IMMEDIATE RELEASE

April 4, 2013

Methapharm announces successful inspections from Florida's Division of Drugs, Devices, and Cosmetics

Methapharm is pleased to announce that it has successfully passed inspections from the State of Florida's Division of Drugs, Devices and Cosmetics.

Methapharm's Coral Springs, FL facility is licensed as a Third Party Logistics Provider (3PL), a Prescription Drug Wholesale Distributor, and a Prescription Drug Repackager. Approval allows Methapharm to continue providing warehousing, distribution, or other services on behalf of manufacturers or wholesale distributors.

In the USA, Methapharm is a VAWD accredited facility (Verified-Accredited Wholesale Distributors through the National Association of Boards of Pharmacy), holds establishment licenses for drugs and medical devices with the US FDA, and has prescription drug wholesale permits with almost all other US states. In Canada, Methapharm holds drug and medical device establishment licenses as well as an NHP site license with Health Canada. Further, we are an ISO 13485:2003 accredited facility.

About Methapharm

Methapharm, based in Brantford, Ontario and Coral Springs, Florida is a privately held, full-service specialty pharmaceutical and medical device company offering sales and marketing, regulatory (RA/QA/PV), market access, and distribution capabilities for product partnership opportunities.

Operating in the United States and Canada, we partner with manufacturers of specialty products so as to make these available to the patients and practitioners we serve. Our mission is to enhance patient care by making specialty products available to address unmet medical needs and improve quality of life.
