Atnahs appoints Methapharm as Canadian Distributor for Naprosyn[®], Anaprox[®], and Toradol[®]

Methapharm is pleased to announce that it has been appointed the Canadian distributor for the Naprosyn[®], Anaprox[®], and Toradol[®] brands. Atnahs Pharma UK Limited (“**Atnahs**”) announced they had acquired the three brands from F.Hoffmann-La Roche Limited in March 2015. With the acquisition, Atnahs is now represented in 5 continents and 40 countries including Asia, Australasia, Canada and the US, South Africa and mainland Europe.

About Methapharm Inc.

Methapharm is a privately held specialty pharmaceutical company that focuses on the acquisition, licensing, and promotion of healthcare products in North America. Methapharm markets its own proprietary products as well as partners with global companies in order to deliver a line of products in the USA and Canada.

About Atnahs Pharma UK Limited.

Atnahs, based in Basildon, Essex, UK, is a family owned pharmaceutical business, created by the management team which established, developed and sold Amdipharm Plc to Cinven in November 2012 for £367m. Atnahs’ Management Team is leveraging its depth of experience and heritage to create a new platform for growth. International acquisitions of niche established branded medicines coupled with a pipeline of niche generic medicines developed its own facilities form the core of Atnahs’ strategy.
