Methapharm Launches PEYONA® in Canada

Methapharm is pleased to announce that it has launched PEYONA® in Canada. PEYONA is used in Neonatal Intensive Care Units for the treatment of interrupted breathing (apnea) in premature babies. PEYONA was developed by Chiesi Farmaceutici and this is the second product from Chiesi that Methapharm markets in Canada.

About Chiesi Farmaceutici S.p.A

Headquartered in Parma, Italy Chiesi Farmaceutici is an international research-focused Healthcare group, with over 80 years of experience in the pharmaceutical industry. Chiesi researches, develops, and markets innovative drugs in the respiratory therapeutics, specialist medicine, and rare diseases areas. Its R&D centres in Parma (Italy), Paris (France), Cary (USA), Chippenham (UK) and the R&D team of the acquired Danish company Zymenex, integrate the group's efforts to advance Chiesi's pre-clinical, clinical, and registration programs. Chiesi has affiliates in twenty-six countries and exports products to over seventy countries. The group employs over 4,500 people, 560 of whom are solely dedicated to research and development activities.

About Methapharm Inc.

Methapharm is a privately held specialty pharmaceutical company that focuses on the acquisition, licensing, and promotion of healthcare products in North America. Methapharm markets its own proprietary products as well as partners with global companies in order to deliver a line of specialty products. The launch of PEYONA is in keeping with Methapharm's mission to make specialty products available to practitioners in the markets we serve.
