

# OptiVantage<sup>®</sup>

DUAL-HEAD CT CONTRAST DELIVERY SYSTEM

OptiVantage<sup>®</sup> is a fully-connected Dual-Head CT Contrast Delivery Injector, designed to keep pace with increasing CT scanner speeds while also supporting more complex injection protocols.

OptiVantage<sup>®</sup> provides flexibility and is compatible with all contrast media vials. It enables tailored CT exams, using the most advanced features such as OptiBolus<sup>™</sup>.

Along with the OptiVantage<sup>®</sup> injector, Methapharm offers a complete range of consumables for single patient or multi-patient use.
